

Powering **Stockzy's** Growth with Omni Channel Communication

How **bigbrosai** — a certified omnichannel provider — supercharges your learner engagement through WhatsApp & Email, at pricing built for EdTech scale.

Your Omnichannel Communication Partner

WhatsApp Messaging

Send transactional alerts, course reminders, and promotional campaigns directly to learners via WhatsApp Business API — with near-100% open rates.

Email Campaigns

Design, automate, and track personalized email journeys — from enrollment confirmations to re-engagement drips — all from one platform.

AI-Powered Intelligence

Leverage smart segmentation, delivery optimization, and real-time analytics to improve learner response rates and reduce drop-off.

Seamless Integration

Connect BigBrosAI to your existing LMS or CRM with robust APIs — no heavy lifting required from your engineering team.

Why Stockzy Needs This

EdTech platforms like Stockzy face a critical challenge: **keeping learners engaged at every stage of the journey**. BigBrosAI bridges the communication gap.

Enrollment & Onboarding

Welcome new learners instantly via WhatsApp with course access links, schedules, and getting-started guides.

Class Reminders & Alerts

Automated reminders before every live session — reduce no-shows and boost attendance rates significantly.

Re-engagement Campaigns

Identify inactive learners and re-engage them with targeted email sequences or personalized WhatsApp nudges.

Performance & Results

Share performance reports, certificates, and upsell new courses at the right moment using behavior-triggered messaging.

The BigBrosAI Workflow for Stockzy

From day one, BigBrosAI plugs into Stockzy's ecosystem — enabling automated, personalized communication across the entire learner lifecycle with zero manual effort.

WhatsApp Pricing Model

How WhatsApp Billing Works

WhatsApp charges per **conversation**, not per message. A conversation is a 24-hour messaging window opened when you reach out to a learner or they contact you.

- **Marketing conversations** — promotional campaigns, upsells, re-engagement
- **Utility conversations** — transactional alerts, reminders, updates
- **Authentication** — otps
- **Service conversations** — learner-initiated support queries

 Service conversations are free on bigbrosai.

Indicative Rate Card (India)

Conversation Type	Rate (per conversation)
Marketing	₹0.990
Utility	₹0.145
Authentication	₹0.145
Service (user-initiated)	₹0.00

bigbrosai adds a **platform fee** on top of WhatsApp's pass-through cost — covering hosting, support, analytics, and automation features.

 Volume discounts available for 50K+ conversations/month.

Email Pricing Model

Simple, Scalable Email Pricing

Email pricing is based on the number of **emails sent per month** — no hidden fees, no per-contact charges.

Monthly Volume	Price per Email
Up to 50,000	₹0.10
50,001 – 2,00,000	₹0.08
2,00,001 – 5,00,000	₹0.06
5,00,000+	Custom / Negotiated

- ✓ All plans include deliverability optimization, open/click tracking, and dedicated IP options at scale.

Why BigBrosAI + Stockzy

WhatsApp Open Rate

vs. 20% average for email alone

Learner Retention

improvement with automated re-engagement sequences

Drop-off Reduction

with timely reminders and personalized nudges

Automation

zero manual effort after initial setup
